The third mohair sale of the 2025 winter selling season saw a 6% increase in market price, achieving a 100% clearance. This against a strengthening currency! Like the previous sale, the young goat component from twenty-seven micron to thirty-two micron benefited the most from the better demand. All six buying houses competed for their share. The demand comes from Europe and the East. The demand is driven by the machine knitting and the velour market. Chris (Dassie) and his son CJ Greeff from Somerset East must be congratulated for their top clip and the best bale of winter kids. This super style, 25-micron bale with a yield of 88.3% went for the best price of R780.10/kg! Rietfontein Familie Boerdery, also from the Somerset East district, performed well. Robert and Michael Bosh decided to keep their best winter kid bale back, but even then, their clip average is well over R400.00/kg! Both these clips are nominated for the Miyuki competition. The next sale is big again with nice quality on offer. The sale will be held in 3 weeks on 21 October 2025.
