The fourth mohair sale of the 2025 winter selling season performed excellently. The overall market indicator (including out sorts) increased by 5%, but the big demand was for the young goat bracket. Especially the 28-micron group and the 31/32-micron group, which increased by 10% or better. The significant difference in this sale was that all the buyers participated, creating good competition. This has been lacking for the past two to three years. There is excellent demand for the velour market as well as the machine-knitting yarns. The demand comes from both Europe and the East, with demand dominant from China. The clip of Sarel and Mathuys du Plessis from Oudtshoorn dominated the sale with a seasonal breaking top price of R815.10/kg for their best bale of winter kids. Their total clip was sold for more than R500.00/kg average! What a performance! The kid bale was a B-length, super style, 24-micron bale with a clean yield of 91.9%. The bulk of mohair for the season is sold now, and the next catalogue will be smaller with excellent quality on offer. The next sale will be held on the 11th of November 2025 at the International Port Elizabeth Mohair Exchange.
