The fifth mohair sale of the 2025 winter selling season performed well. Although the market indicator only increased by 1%, there was strong competition from all the buyers. Overall, a very satisfactory sale. There was not much movement in the kid and adult component of the clip, but the young goat segment excelled again, like on the previous sale. However, the star of the day was Sontana Boerdery from Oudtshoorn. Manie and Pieter du Plessis did not just have the top price of the day; their top three bales of kids all sold at R800.00/kg and above. All three bales qualified as super style bales of twenty-five micron with an average clean yield of 90%! It does not stop there; the average price of their whole clip just missed the R500.00/kg level! Congratulations! The next sale will have all the top clips in the country on display. The HOF marketing team expects that this good demand will continue. The sale will be similar in size. The sale will be offered in the International Mohair Exchange on the 25th of November 2025.
