The HF marketing team is very satisfied with the results of the last mohair sale of the 2025 winter selling season. Although the market is quoted at 2% down compared to the previous sale, in all practical terms, the market was unchanged. The exchange rate was 1.4% against the market, and you cannot compare the quality of this sale with the previous sale, with all the top clips in the world competing. The market indicator does make provision for a situation like this, but still shows in real terms a 1% difference. On the positive side, this sale is nearly 10% better than a year ago, and all the buying houses were competing on all lots till the very end of the sale. That is a good sign for demand in February 2026. Congratulations to Lloyd Short of Borden Farming, Graaff-Reinet, with his R780.00/kg for his best bale of 25-micron winter kids. The HF team would like to thank all farmers for their diligent support through 2025. Wishing everyone the best for the Christmas break. May you have a wonderful time commemorating the birth of Christ. The first sale in 2026 will take place on February 10, 2026.
