The second mohair sale of the 2026 selling season burst through the R400.00/kg barrier for an average RMS clip for the first time in 3 years. Needless to say, there was good demand from all the buyers for all types. There was a bit of hesitancy yesterday when the world stage was dominated by this weekend's full attack of the USA on Iran, putting a huge question mark on the oil and gas supply to Europe and the East, but it is still early days. However, the highlight of the days preceding was the top prices paid for the best two bales on the HF catalogue. Firstly, the 21-micron, super style bale (94.1% clean yield) of Andries Botha (Kareekrans Boerdery) of Somerset East was sold for R881.00/kg. This seasonal record was broken a few minutes later when Francios Theron (Eensaamheid Boerdery) from Graaff-Reinet, a 23-micron super style bale (94% clean yield) was sold for R910.00/kg! Congratulations to both of the farmers for their excellent quality bales! The next sale will be offered on the 17th of March. It will be remarkably similar in size, with excellent quality on offer. Price levels should be maintained.
