The third mohair sale of the 2026 summer selling season was highly satisfactory. The average indicator improved by 3.8% compared to the previous sale, with the exchange rate not being a factor. The good demand from all buyers is really an eye-opener. It has been literally years since we have seen such competition. The other factor is the quality of the mohair on offer. We have never experienced this quality before, on the third sale of the season. Then we came to the highlight of the sale. Sias Reynolds of Kamferskraal Boerdery, Beaufort West, stole the limelight with his super style, B-length bale with an unbelievable 20.4 micron and a clean yield of 89.9%! 5 years ago, statistics like this were unheard of. His whole clip is also EGT tested. This bale sold for a seasonal record price of R1 005.00/kg! The bale was bought by Paul Lynch from Standard Wool for a specialist spinner from Italy. This put the bale in the top five highest prices in the mohair history!! Close on these bale heels were the super style, B-length bale of Petrus Marx of Wolmaransstad. This bale tested twenty-three microns with a clean yield of 95%! Petrus has only 5 years in the industry and is already a successful stud breeder and delivers kid bales like this at the sales. Another stud breeder, Izak and Zak van der Merwe from Kunna Familie Trust, Aberdeen, followed closely with a record-breaking super style 25-micron bale at R993.00/kg! This B-length bale also has a clean yield of 95%. The next sale will be offered on 31 March and will be slightly bigger with high-quality bales on offer.
