Today we had the 3rd sale of the winter season, with an upward movement of 3.3% in the market. The adult mohair did, however, come under some pressure, particularly in the stronger microns. Special congratulations to Dawid du Plessis from Cradock, who achieved an excellent price of R910.00/kg for a Super Style Kid bale, with a micron of 25.0 and a clean yield of 93.1%. This is an excellent result! We also had our first Lesotho sale yesterday, and we did not see much of an impact on today's Cape sale. This is positive and shows that there is still good demand for mohair, driven by both European and Eastern markets. Lastly, a big congratulations to the House of Fibre binning department for the excellent work and effort that goes on behind the scenes to help achieve these results.
