8. Standard Wool SA	0.0%

The fifth mohair sale of the 2024 winter selling season performed satisfactorily considering that it is just the two processing buyers competing. Compared to a year ago, the average RMS indicator is now 2% better, but the significant difference is that the Rand is currently 6.6% stronger than a year ago. That means that in real terms we are 8% better off than a year ago. Last year this time was also the turning point in demand and price. The Bosch Brothers of Somerset East, Robert, and Michael performed exceptionally well with their clip. Not only did they get the best price of the day for their super winter kid bale of twenty five microns at R720.000/kg, but their clip average is also well in the R400/kg bracket. The next sale will be a big sale with exceptionally high quality. The catalogue will be offered on the 19th of November. This sale is normally the highlight of the winter season.
