The second last mohair sale of the summer 2024 selling season is always a challenging sale to quote. Yes, it was an excellent sale and much better than the one two weeks ago, with significantly improved quality. This sale is always good because the buyers all wait for this sale to buy the superior types. It is in no way an indicator of what the market trend will be on the last sale or the trend for the coming winter season. Let us rather bask in the glory of this sale. At HF six individual bales broke the R900.00/kg barrier! The clips of Jordi van Hasselt of Prince Albert and Michau Nortje from Willowmore dominated the procedures. Michau Nortje at the end took the honours with R970.00/kg and Van Hasselt Farming at R953.10/kg in second place. These were the best two clips ever on offer, according to the judgement of the technical team at HF. The HF Binning Department can also be enormously proud of their seasonal record price of R830.00/kg for one of their best summer kid bales! The last sale of the season will be a little bigger, with some genuinely nice individual bales on offer. This sale will take place on the 4th of June at the International Mohair Exchange in Port Elizabeth.
